Fully Automated Braking System With 4 Rear Sensors

\$1,795.00 + GST

- Fully autonomous reverse braking system that can be retrofitted to any vehicle, truck or item of plant.
- Rear sensors installed on vehicle – choice of various sensory packages.
- Once sensors detect object, signal sent to patented braking activation system – stopping the vehicle.

- Braking and detection settings can be adjusted dependant on vehicle type and environment.
- No button pressing – auto park mode, auto override and auto brake release.
- Over-height sensors can be installed – canopy protection.
- 12 or 24 volt systems.

AUTOMOBILITY

LEADERS IN WHEELCHAIR ACCESS

KIA CARNIVAL

Wheelchair Accessible Taxi

More passengers, more trips per shift - means more money in your pocket.

Faster loading and unloading allows for more trips per shift.

Discreet conversion provides customer satisfaction for wheelchair occupant and able bodied passengers.

- Manually operated rear door
- Electrically operated wheelchair restraints for ease of loading and unloading wheelchair
- Quick release manual ramp. Quick and easy to use
- Factory original seating for operator and able bodied passengers

Our Proven and Successful Kia Carnival Wheelchair Accessible Taxi conversion has a patented independent rear suspension and seating for a driver, 1 wheelchair occupant and 4 passengers or up to 6 passengers.

Enabling Life's Journey

automobility.com.au

Safe, secure and stress-free travel

At Automobility we use the latest in automotive engineering technology to design and build the best wheelchair accessible taxi conversions on the market.

Our experienced team of designers, technicians and management ensure that all of the latest safety and security features are built into our vehicles. We exceed Australian standards and provide exceptional comfort and visibility for you and your passengers.

- Petrol or Diesel
- Taxi Directorate compliant
- Low running costs with good fuel economy
- Quick manufacturing gets you earning sooner
- High quality, reliable conversion less down time
- Independent rear suspension provides superior ride comfort for all occupants
